DEI Section 1: What specific groups your funded activity supports or is aimed at

We want to know if the people your funded activity is supporting or aimed at shares a particular identity and/or experience(s). And if they do, we'd like to know what those shared characteristics are.

By this we mean **75% or more of the people supported or aimed at by your funded activity share a particular identity and/or experiences.** You can choose more than one in the categories below. But please note that 75% or more of the people your work supports should share these identities and/or experiences.

For example, if the people you're supporting is made up of at least 75% disabled people under 26, this would qualify as supporting a specific group: young people who identify as disabled. So, they would fall under two categories:

- 'Older or younger people' and then the sub-category 'Children and Young People (typically those aged under26)'
- 'Disabled People (All)' with no sub-category as the funded activity does not support people who identify with a specific disability.

You can find guidance on the different categories and sub-categories here. Where there are relevant sub-categories you will be asked to complete these, and where relevant open text boxes have been provided. Please note: If you select 'other' in any of the categories, you can use the 'lived experience' box to be more specific.

    c. Prefer not to say → to question 54 on the leadership or your organisation
